Subject Opinion: Prevention and Handling of Potential Conflicts of Interest

Urgent     Return receipt     Sign     Encrypt

To Whom It May Concern,

I am writing in response to the open invitation for public submission.

In my opinion, the principles behind the policies that apply to general public servants should also apply to the Chief Executive and the other members within the scope of the review. There is no reason to be otherwise. With power comes responsibilities. They who have the power to affect the life of millions have the responsibility to prove, in a form that can be seen by the public, that they are clean, that personal interests are not involved in the policy or decision making process.

Thank you for your attention.

曾一喬

~~~~~

To know that one is in a certain condition, in a certain state, is already a process of liberation. ~ Krishnamurti
