Subject Review: Public Submission

Urgent Return receipt Sign Encrypt

Dear Sir,

Thanks for your call for submission.

As a start, could you kindly advise me on where and how to obtain copies of prevailing rules, regulations and procedures governing the subject of your review? I am afraid I could not find them at your website this morning.

I would also like to register an essential point which, I am fully aware, is not within your jurisdiction at this point in time. I firmly believe that the current review should be further extended to all members of the Legco and if possible, to members of the Chinese Liaison Office and members of the NPC and CPPCC, even though these categories are not under HK's own jurisdiction.

I hope you could bring this latter point to the personal attention of the Chairman of the Committee.

I would like to remain anonymous when my views are published.

Thank you for your attention.
